Roy Berko, Andrew Wolvin, Darlyn R. Wolvin, Joan E. Aitken : Communicating: A Social, Career, and Cultural Focus before purchasing it in order to gauge whether or not it would be worth my time, and all praised Communicating: A Social, Career, and Cultural Focus:

0 of 0 people found the following review helpful. College bookBy amieIt was a book I needed for college and I finally very easy to read and understand. It came in perfect condition0 of 0 people found the following review helpful. Five StarsBy Andy Romanovnever needed it tho0 of 0 people found the following review helpful. College Book Speech 101By david j. ramirezThis book was helpful, a few dollars cheaper than the one at the college book store but, when your buying textbooks I guess every dollar counts. The expedited shipping took longer than I had hoped so I don't know if the extra money for it was worth it. Overall it's what I needed.

This highly-regarded introduction to communication book offers a comprehensive blend of basic communication theory, research, and skills, with a strong emphasis on relationship communication (social), workplace (career), and intercultural communication (culture). Communicating introduces the basic principles of communication and applies

them to interpersonal, group, interviewing, and public speaking contexts. The book stresses communication competence through boxed material, Learn by Doing activities, thought-provoking questions, and self-assessment tests. New and strengthened pedagogy highlights and reinforces the book's social, career, and cultural themes, with a particular emphasis on intercultural communication and communicating in an increasingly high-tech, global environment.
