Fiona Doyle : Deluge (NHB Modern Plays) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Deluge (NHB Modern Plays):

A deeply provocative thriller set in a blighted landscape where nature is fiercely taking its course, Deluge is a gripping drama from the Papatango Prize-winning author of Coolatully. Winner of the 2014 Eamon Keane Full-Length Play Award There's something uncanny going on at Joe and Kitty's farm. Precious feed is mysteriously disappearing from

the hay shed and prized livestock is being slaughtered at night whilst sinister shadows lurk in the darkness. With fodder running out and no money left, Joe and Kitty, like their desperate neighbours, will stop at nothing to protect themselves and their cherished land. But at what cost? Fiona Doyle's *Deluge* premiered at Hampstead Downstairs, London, in April 2015.
