Niccolgrave; Machiavelli : Mandragola (Italian Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Mandragola (Italian Edition):

Both entertaining and practically usefulBy YuriI bought it to supplement my studies of Italian and find it quite useful from few standpoints.First, the text is legible and selectable,so you can select and highlight individual words for review.Second, while it was written in 1518, it amazes me how easy it is to read and understand most of the vocabulary there.The play is, of course, in the public domain so you can find it

on the Internet (if so I highly recommend "Bibliotheca Philosophica") , but I bought it anyway as I like to have all my books conveniently in the same place.0 of 0 people found the following review helpful. Find another edition.

Niccolò Machiavelli (Firenze, 3 maggio 1469 ndash; Firenze, 21 giugno 1527) egrave; stato uno storico, filosofo, scrittore, politico e drammaturgo italiano.Considerato, come Leonardo da Vinci, un uomo rinascimentale, nonchegrave; figura controversa nella Firenze dei Medici, egrave; noto come il fondatore della scienza politica moderna, i cui principi base emergono dalla sua opera piugrave; famosa, *Il Principe*, nella quale egrave; esposto il concetto di ragion di stato e la concezione ciclica della storia. Questa definizione ndash; secondo molti ndash; descrive in maniera compiuta sia l'uomo sia il letterato piugrave; del termine machiavellico, entrato peraltro nel linguaggio corrente ad indicare un'intelligenza acuta e sottile, ma anche spregiudicata[1] e, proprio per questa connotazione negativa del termine, negli ambiti letterari viene preferito il termine "machiavelliano".

Language NotesText: ItalianAbout the AuthorNiccolo Machiavelli was an Italian politician, diplomat, founding father of political science, and author of the preeminent political treatise, *The Prince*. Born in Florence, Italy, Machiavelli held many government posts over his lifetime and often took leading roles in important diplomatic missions. During his time visiting other countries and nation states, Machiavelli was exposed to the politics of figures like Ceasare Borgia and King Louis XII, experiences which would inform his writings on state-building and politics. Machiavelli's political career came to an abrupt end when the Medici overthrew Florence, and he was held as a prisoner under the new regime. Tortured for a short time, he was released without admitting to any crime or treason. At this point, Machiavelli retired and turned to intellectual and philosophical pursuits, producing his two major works, *The Prince* and *Discourses on the First Ten Books of Titus Livy*. He died in 1527 at the age of 58.
