**Karen Hollinger : The Actress: Hollywood Acting and the Female Star** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Actress: Hollywood Acting and the Female Star:

The Actress: Hollywood Acting and the Female Star investigates the contemporary film actress both as an artist and as an ideological construct. Divided into two sections, The Actress first examines the major issues in studying film acting, stardom, and the Hollywood actress. Combining theories of screen acting and of film stardom, The Actress

presents a synthesis of methodologies and offers the student and scholar a new approach to these two subjects of study.

About the Author Karen Hollinger is Professor of English in the Department of Languages, Literature, and Philosophy at Armstrong Atlantic State University in Savannah, Georgia.
