The Boy in the Bin is a novel and is much better written that the first twoBy eva breedloveThis is the third book I have read by Charles Massie. The first two were true-crime..The Boy in the Bin is a novel and is much better written that the first two. It could be read by an adolescent as well as an adult. There are a few graphic scenes but older adolescence would benefit by reading the book.The work is

set in present day Brooklyn. Raphael is born into an affluent but dysfunctional family. During his early years he must deal with a cleft palate which makes him the subject of teasing by his peers. During his formative years he quickly falls into the wrong crowd causing him to continually be in trouble at school. During Raphael's teen years he must face the loss of his parents..He is forced to sleep in a storage bin. Mr. Massie writes an exciting tale of how Raphael copes with the life he is dealt and eventually gets his life on the right track. As an educator I recommend this novel for parents and young adults. 0 of 0 people found the following review helpful. Boy In A Bin....good reading for all By donna bernaruds Mr. Massie is at it again threading a coming of age doctrine with real life adventure as in his previous books. The book addresses common social problems of developing youths: mortally, spiritually and emotionally. Raphael is a teenager dealing with a malfunctioning family and basically is a turn key child. Being deformed has caused conflict with his peer group, they ostracized and reject him because of his cleft pallet. Rafael kinds kindship with a cast out group of arsonists, thrives and sexual deviants. The rejects of society. Through many adventures he finds his way back to society and forms new values by being totally deserted by mankind. A good book for all to read as it validates human responses to social pressures. Then supports the values of hard work and self retrospective. Great for those formative teen year's people to read or would be good to use as a read for high school ethics and morals based coarse study. The book is well thought out and includes answered that most readers with raise. Would be a good mini series for after school hours TV or a movie. There is a lot of issues for parents to glean information helpful for them to raise their children. Another good book by Mr. Massie. I am hoping for another soon. Thank you.

Raphael isn't well liked. He is an intelligent boy, quick witted and never at a loss for words. But Raphael came into life with a cleft palate; a harelip. He a soul constantly teased by others. As an only child, he is spoiled by his doting parents. Because of this and his disability, he develops quite an attitude. Fighting constantly because of his ideas of entitlement, his actions cause problems at school until gets expelled. His father is forced to find another institution to further his learning. One of his favorite after-school activities is getting 'Five Finger Discounts' from the local vendors. Naturally he gets arrested and the court sends him to a teen rehabilitation camp. During his stay, his father is the victim of a contract murder. Upon release, he returns to school, but shortly afterward, he is accused of the molestation of a young girl. This time, the court sends him to jail. Incarceration is difficult for him, but he completes his sentence and returns home again. He spends his idle hours, running with a gang of other teens, who enjoy any form of mayhem. Shoplifting, vandalizing and arson are all part of his daily routine. Now, the hand of fate steps into Raphael's life. His house burns down, killing his mother and leaving him an orphan. When the police try to question him, he runs away and begins living in a storage bin; wanted by the law. He is forced to endure a series of strange events and ultimately, the errors of his life are shown to him. He is given a new outlook. Just as he is about to embrace his new life of peace, he overhears a plot to kill the President of the United States. Now a gang of ruthless assassins are after him; in addition to the police. This is the story of a young boy's coming of age; the point in his life where he takes his first steps at being responsible for himself and others. The story explores growing up and being spiritually awakened at the same time. This story will give you hope.
