Nick Dear : The Dark Earth and the Light Sky before purchasing it in order to gage whether or not it would be worth my time, and all praised The Dark Earth and the Light Sky:

Deep in the Hampshire countryside Edward Thomas, disaffected husband, exhausted father and tormented writer, scrapes a living. In 1913 he meets American poet Robert Frost and everything changes. As their friendship blossoms

Edward writes, emerging from his cocoon of self-doubt into one of the most influential poets of the twentieth century. But he makes the drastic decision to enlist, confounding his friends and family. *The Dark Earth and the Light Sky*, which premiered at the Almeida Theatre, London, in November 2012, delves into the life of this enigmatic and complex character in an era of change and destruction.
